Vaseline (petrolatum) is derived from the refining of mineral oils in refineries.

Vaseline is classified into 3 distinct grades:

- Pharmaceutical: Used in eye ointments, medicinal products, and specialized skin treatments.
- Cosmetic: Employed in the production of beauty and personal care items like moisturizers, lipsticks, and foundations.
- Industrial: Utilized in various industrial applications such as wax manufacturing, lubricants, leather processing, and cable production.

At Saj, we transform premium pharmaceutical and cosmetic-grade vaselina into exceptional skincare products, using top-tier raw materials, cutting-edge technology, and automated machinery.

All Saj Vaseline products are enriched with added nutrients.

Saj Magic Healing

Calendula Oil Vaseline:

(Calendula vaselina)

A blend of pharmaceutical-grade Vaseline, calendula oil extract, beeswax, isopropyl myristate, vitamin E, allantoin, and approved fragrance.

Saj Calendula Vaseline improves closed wounds (scratches) and skin inflammations, removes dead skin cells, and replaces them with young cells, making the skin fresh and radiant. With regular use of Calendula Vaseline, you will have supple, clear, and radiant skin.

Packaging:

60 ml polyethylene jar in cartons of 96 pieces.

Saj Baby Vaseline:

(Baby vaselina)

Saj Normal Skin Body Lotion:

(Normal skin body lotion with jojoba oil)

This product, due to the presence of jojoba oil, glycerin, cetyl alcohol, and beeswax, has strong skin-softening properties. The product's compounds have moisturizing and softening effects, and thanks to the presence of vitamin E and jojoba oil, it has anti-acne, protective, and anti-aging properties. It is also suitable for treating eczema and dry skin.

Packaging: Pump bottle of 300 ml, packed in cartons of 24 units.

Saj Dry Skin Body Lotion:

(Dry skin body lotion with jojoba oil and eucerin)

Saj Dry Skin Body Lotion, due to its rich emollient compounds, has strong moisturizing and softening properties. Thanks to the presence of lanolin, eucerin, aloe vera, dexpanthenol, allantoin, jojoba oil, beeswax, and other unique ingredients, it has anti-dryness and rejuvenating properties and is highly effective in treating psoriasis and eczema.

Packaging:
Pump bottle of 300 ml, packed in cartons of 24 units.

Saj Lip Balm:

(Berry kiss lip balm and
Mint kiss lip balm)

This product offers intense softening and hydrating benefits, thanks to its blend of coconut oil, castor oil, beeswax, and glycerin. Enriched with vitamins and coconut oil, it provides protective and anti-aging effects. It's ideal for addressing eczema and dry lips, and suitable for all skin types, particularly dry skin. It also proves highly effective in minimizing or preventing skin allergies.

Packaging:
15ml plastic tube, 96 tubes per carton.

Saj Vitamin E Moisturizing Cream:

(Fast absorbing hand & body cream).

This product provides a protective barrier against cold weather, wind, and harsh environmental elements. Enriched with lanolin, it delivers exceptional skin softening. The formulation boasts moisturizing and softening benefits, while vitamin E offers protective and anti-aging properties.

Packaging:
60ml plastic tube, 72 tubes per carton.

Vaseline with castor oil and cocoa butter:

(Nourishing magical enhance
vaselina)

Vaseline containing castor oil and cocoa butter, due to its rich emollient compounds such as castor oil, argan oil, and cocoa butter, has strong moisturizing and softening properties. This product, thanks to the presence of cocoa butter and argan oil, is suitable for removing skin blemishes and stretch marks caused by pregnancy.

Packaging:
Pump bottle of 300 ml, packed in cartons of 24 units.

Saj Eucerin with Urea Healing Enhancement Cream:

(Eucerin with 10% urea cream)

This cream delivers intense hydration to the skin's deep layers, making it ideal for dry and very dry face and body skin. It effectively repairs eczema-related wounds and cracks, and prevents eczema flare-ups by retaining moisture. Furthermore, it provides long-lasting moisturizing and protective benefits during cold weather.

Packaging:
60ml plastic tube, 72 tubes per carton.

Saj Chap Healing Enhancement Cream:

(Foot cream)

Deep foot cracks result from reduced fat and moisture on the soles of the feet, stemming from diverse causes. This product is formulated with glycerin, lanolin, allantoin, and corn starch, creating a potent blend for intense hydration and softening. Furthermore, allantoin provides keratolytic benefits, effectively eliminating dead skin cells.

Packaging:
60ml plastic tube, 72 tubes per carton.

Saj Hand and Face Cream:

(Hand & face emollient cream)

This product boasts exceptional moisturizing and softening capabilities, thanks to its high concentration of emollient ingredients. Its lightweight texture makes it ideal for both hand and face application, catering to all skin types. Moreover, the inclusion of vitamin A makes it particularly beneficial for those with acne-prone skin.

Packaging:
60ml plastic tube, 72 tubes per carton.

Saj Moisturizing Cream:

(Moisturizing cream)

A multi-purpose product with the ability to be used as a base cream. Contains effective emollients and moisturizers. Creates a balanced water and oil balance of the skin and an effective protector in adverse weather conditions.

Packaging:
50-gram aluminum tube with internal protective coating in cartons of 144 pieces.

Saj Anti Chap Cream:

(Anti chap cream)

Definitive treatment for the most severe cases of cracked skin on the palms, heels, elbows, knees, and other areas of the body. Exclusive formulation of softening, moisturizing, keratolytic, and skin nourishing. Approved by the most reputable scientific and academic centers.

Packaging:
50-gram aluminum tube with internal protective coating in cartons of 144 pieces.
